

CHEM GERM GERM CONCENTRATE

GERMICIDE ... DISINFECTANT ... DEODORANT

CHEM GERM Concentrate is stabilized quaternary ammonium compound in a coordinated stabilized water and/or oil soluble base which when diluted according to instructions is an effective germicide, disinfectant and odor suppressant, which can be used for:

- 1) Virus Infection Prevention
- 2) Large Scale disinfectant treatments against the Swine Flu (H1N1), Cholera and others.
- 3) Major deodorization/odor removal
- 4) Biological Pathogen Control.

FOR USE IN:

- 1) Hospitals and Pharmaceutical Facilities
- 2) Hotels and Convention Centers
- 3) Sewerage Plants
- 4) Garbage dumps and Landfill Centers
- 5) Poultry Houses and Livestock Facilities
- 6) Trash Barrels and Cannery Wastes
- 7) Animal Breeding Farms
- 8) Airplanes, Cruise Lines and Cargo Ships
- 9) Airport Facilities and Tourist locations
- 10) Restaurants and Sports Clubs and others.

DIRECTIONS FOR USE:

A. GENERAL GERMICIDE APPLICATIONS:

Dilute 1 Part CHEM-GERM in 250 Parts of water or 400 ppm on active ingredient basis. Dilution rate can be increased or decreased subject to level of disease infection

B. GENERAL DISINFECTANT TREATMENTS:

Dilute 1 Part CHEM GERM in 125 Parts water or 800 ppm on active ingredient basis. Dilution rate can be increased or decreased subject to odor strength and level of disease infection.

C. DEODORANT AND PROCESS WASTES:

Dilute 1 Part CHEM GERM in 100 Parts water or 1000 ppm on active ingredient basis. Dilution rate can be increased or decreased subject to odor strength.

FOR USE IN TIFA MACHINES, MODELS 100E, UL-V-HD PLUS, 1504, TAPA, TIGA, HS100, Microsol 101 & 202 AND OTHER LOCALLY AVAILABLE MACHINES:

Dilute 1 part CHEM-GERM to 75 parts water and apply as a cold fog or mist spray indoors and outdoors. For selected indoor facilities, Chem Germ may be diluted with mineral oil for longer residual effect. Care should be exercised in doing indoor work to prevent staining of furniture, walls, wall paper etc. The Dilution rate can be increased or decreased subject to odor strength and level of disease infection.

PRECAUTIONARY STATEMENTS

WARNING:

Corrosive.
This product causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this material. Harmful or fatal when swallowed. Avoid Contamination with food. Toxic to fish: Keep out of any body of water. Do not reuse container. Destroy container when empty.

FIRST AID

If in Eyes:	Hold eye open and rinse slowly and gently with plenty of water for at least 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician immediately.
If Swallowed:	Drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid Alcohol. Call a physician immediately
If Inhaled:	Move person to fresh air. If person is not breathing, call emergency services then give artificial respiration, preferably mouth to mouth if possible.
If on Skin or Clothing:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a physician for treatment advice. Wash contaminated clothing before reusing.
Note to Physician	Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.
